

Percussionist Edgardo Cintron is a second-generation Puerto Rican and a second-generation musician. Known as much for his affable personality and generous spirit as for his tasty musicianship, Edgardo has created his new band, mambo magic, in 2023, featuring the music of the great Tito Puente, Ray Barretto, Eddie Palmieri, Spyra Gyra, and more.

The Band was at the Clifford Brown Jazz Festival in 2022 and had the crowd on their feet dancing the whole time; what a fantastic concert. We want to bring that energy to the Hispanic Leadership Association of New Jersey's 10th Annual Awards Gala. The band is currently performing at major festivals along the East Coast!

Edgardo has assembled some amazing bands, Tiempo Noventa in the 80 and the 90. In 2001 Edgardo put together High-powered Band, Cintron; the band performed for over 22 years at festivals around the country and the Caribbean. One of the hit songs recorded by Cintron was called Suavecito on the Universal Records label. To this day, Suavecito's video filmed in Florida has 1.2 million views on YouTube,

Edgardo and the band look forward to performing and seeing all the fans at the Resorts Casino Hotel on Saturday, October 28, 2023! It is going to be a fantastic night of music and dancing!
